MISSION STATEMENTS

TRENTON BOARD OF EDUCATION

Trenton Public School District is committed to educational excellence and equity for its students in an environment conducive to learning.

The district seeks innovative partnerships which will aid in developing productive and responsible citizens of the community and society, now, and into the Twenty-First Century.

TRENTON CENTRAL HIGH SCHOOL

To provide students with an environment in which the heritage of man's past is transmitted, to foster the development of individual strengths, to promote personal development, to promote cultural awareness, to instill the ability and the desire to continue the acquisition of knowledge which will enable each student to become an effective, thinking, sensitive, economically productive member of society, exercising rights and responsibilities while realizing their obligations to the past, the present, and the future.
