

Making The World A Better Place

There are many examples of people working for our common good. When students organize rallies to raise money for school events, many local people come out and support their cause as they did for Sports Night. Many people come to all three days of the event. They not only enjoy themselves; they get the satisfaction of knowing that they have helped the school raise money. Some people say that we as a group will never survive. I really truly disagree with that. Many children are trying to make the world a better place.

Sports Nite packs the house at TCHS

TRENTON — Trenton Central High School juniors and seniors played to a packed house last night as they kicked off Sports Nite '96, a three-night celebration of school spirit and good-natured competition.

The traditional rivalry between the Red and Black teams reached a fever pitch early in the evening as students vied for victory points in dance, athletic events and cheering competitions.

It took no more than the opening face-off between the Red and Black cheerleaders to pull

the roaring crowd to its feet, as each side of the gymnasium screamed encouragements to its favorite team.

The Red Team gained an early lead in the scooter relay race, but somewhere in the middle of the contest the Black Team pulled ahead by nearly a lap and appeared to have the victory in the bag. It was only a brilliant effort by the Red Team's final racer that pulled the team to a breathtaking upset.

But winning wasn't the most important thing, said the Red Team's modern dance squad as members did a quick costume change in the locker room beneath the gym.

"This is a chance for us to have fun and get together for something good," said Lakisha Till-

ery, a senior. "People are always saying we're like animals but year after year they come out to watch us do this."

"It's something for us to be proud of," said Andraya Muse, a senior. "Last year when we were juniors we felt like it was so important to win. But this year it's a group thing. We're just having fun. There's too much talent to just judge one team the winner."

The teams will compete tonight and tomorrow night. Their scores will be tallied up tomorrow night and a winner will be declared.

Quantanette Wise, a senior, said she realizes it's all in fun but she wants to win anyway.

"We're seniors and it would be nice to have something like this to remember," she said.

Great time

All that team spirit! All that school spirit! Sports Night at Trenton Central High School was wonderful. I'm very proud of the students there.

The arts

Willie Condry's ambition is to attend college and major in fine arts. His ultimate goal is a career in commercial art or advertising. Given his artistic talent and potential, along with his academic ratings, he is well prepared to meet and to surpass his objectives.

Condry has been the art captain for Sports Nite (Black Team) for two years. He designs and implements the visuals for the school's yearly event. Condry

has participated in after-school programs under the auspices of the fine-arts staff and the New Jersey School of the Arts. He has worked in sculpture and origami classes with Johnson Atelier experts in their field.

Condry is currently taking independent study courses with Milton Tibbs and is preparing a portfolio.

"Willie is a scholar, an artist and a gentleman," said nominating teacher Milton Tibbs.
