

THE CONVERSATION CONTINUES

15 CONVERSATIONS / 16 ARTISTS / 40 ARTWORKS

In the exhibition *The Conversation Continues* artworks are installed next to works that apparently do not share style, attitude, material or intent. They are positioned because of their differences. Since form is a visual language, conversations can be said to take place among works. Listening to what they have to say offers greater understanding of each individual piece, and leads us to make connections and find similarities beyond differences. Nothing has previously been established in terms of meaning in these conversations. Interpretation is up to the viewer.

—Madelaine Shellaby
